

October monthly block

Cheri Stockinger, 2019 Artist in Residence

The October block was inspired by a sunny hike on the Fish Lake Nature Trail over MEA weekend. The autumn leaves were at their peak color. The maple leaf design represents the intense color of the maple tree leaves along the trail. The old farm landscape print fabric is a reminder that much of Cedar Creek was once farmland. It is common for local residents to say goodbye to visiting friends and family by saying "watch for deer." These medium-sized mammals are frequent browsers and often seen throughout area.
